#### **TOP TIPS**

##### **How to Record Your Video**

What equipment should I use?

*You can record your video on any mobile phone, laptop, tablet or camera. Use the in-built microphone to capture the sound.*

What should the background of the video be?

*Record your video with as uncluttered a background as possible. Try and keep personal belongings out of sight. A light coloured wall background is ideal.*

How shall I set up the camera?

*Record indoors with good lighting and with your camera in landscape mode if possible. Make sure you are in the centre of the shot with as much of you and your instrument visible as you can.*

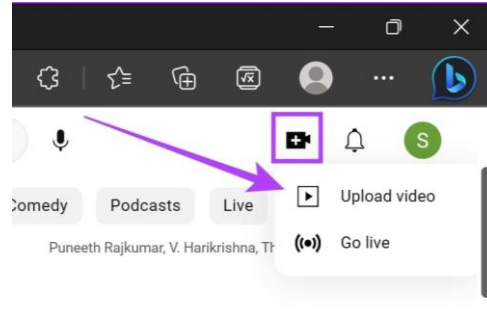

Anything else to remember?

*Your videos must be submitted without any audio effects (such as reverb). Also, try and leave a few seconds of silence at the start and end of your video.*

# How to Create an Unlisted YouTube Video

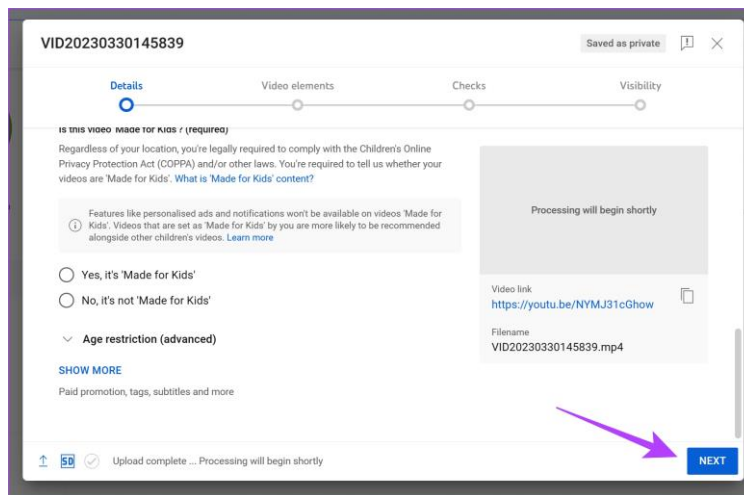

## Step 1

Open YouTube on your web browser and sign in. Click on the videocam icon at the top right corner. Click on **Upload Video**.

## Step 2

Select the file that you want to upload. Click on **Next**.

## Step 3

Once you reach the Visibility option, check the box for '**Unlisted**' (NOT 'Private') and click **Save**
